Save for the Future with Our IRA:

Get 1% on any amount from
outside accounts, IRAs, or
old 401(k)s and Zero Taxes.
No cap.

**No employer necessary.
Absolute Zero Taxes.**

What's an IRA and how does it work?

An individual retirement account (IRA) allows you to save and invest money for your retirement with tax advantages. A Roth IRA offers tax-free growth potential on after-tax contributions. For a traditional IRA, your investments have the opportunity to grow tax-deferred with before-tax and after-tax contributions.

Each year the IRS sets a maximum amount that you can contribute across all of your IRAs, including those outside of GemSquare Invest. For 2023, the contribution limit is \$6,500 for people under age 50, and \$7,500 for people age 50 and over. You can either make a new IRA contribution that counts towards your annual limit or rollover funds from another retirement account to reinvest. GemSquare Invest Retirement is reimaging IRAs by offering a 1% IRA Match on eligible contributions

with no employer necessary. GemSquare Invest Retirement is giving you a match of 1% of eligible contributions without needing to have an employer plan.

What types of retirement accounts do you offer?

GemSquare Invest offers two different types of retirement accounts: traditional IRA and Roth IRA.

A **traditional IRA** saves for your retirement and gives you tax advantages. This means you may be able to deduct qualified contributions now and pay taxes later. Your contributions may be fully or partially deductible, depending on your filing status and income.

A **Roth IRA** allows you to contribute after-tax dollars. This means you pay taxes on contributions now with tax-free withdrawals later. Any earnings are tax and penalty free if they meet certain requirements.

What's the IRA Match?

The IRA Match is an extra 1% that GemSquare Invest adds to your IRA for making eligible contributions from outside accounts, IRA transfers, or 401(k) rollovers. It's not counted toward your annual contribution limits, and there's no limit on the match amount you can earn.

Previously, you got matched on every external dollar you contributed. Now, you get matched on any amount from outside accounts, IRA transfers, or old 401(k)s. We'll add 1%. No cap.

How do I earn the 1% IRA Match and when is it paid out?

For IRA contributions, you can earn the 1% match on all new IRA contributions (up to the contribution limit) from any linked external bank account.

When your IRA transfer completes, the amount of the Match is calculated based on 1% of the total of the transferred cash plus transferred securities and options, using the national market system closing price of each position transferred into the account on the trading day before when the transfer settles. Settlement occurs when the securities are posted to the account and available to trade. Note that the Match is only available for securities that successfully transfer and settle, and won't be granted for securities that are rejected.

The IRA Match will generally be available in your account and ready to invest when your deposits are completed. Also, to avoid the possibility of an Early IRA Match Removal Fee, you'll need to keep the contributions in your IRA for at least 2 years from the date you contribute.
